 Hi

Will you add this from SD’s calendar today please – thank you.

Topic: Call to Discuss the Four Corners Power Plant – Please call the EPA Polycom (b) (6)

Date: Today

Time: 4:15 – 4:30 p.m.

Location: 3513E

Required: Bolen, Brittany <bolen.brittany@epa.gov <mailto:bolen.brittany@epa.gov> >; Gunasekara, Mandy Gunasekara.Mandy@epa.gov <mailto:Gunasekara.Mandy@epa.gov> ; megan.berge@bakerbotts.com <mailto:megan.berge@bakerbotts.com>

Request:

I represent APS, the operator of the Four Corners Power Plan located on the Navajo Nation. We would like to discuss with you a federal implementation plan finalized in early January that affects the plant.

We are preparing materials on the FIP; in short, APS is concerned with certain monitoring requirements that restrict plant operations without providing environmental benefits. APS believes there are more effective and less burdensome monitoring options available. I would appreciate the chance to speak with you about the FIP, which has not yet been published in the federal register.

Request: I am writing today on behalf of Northwest Public Power Association (NWPPA)'s Executive Director Anita Decker. Anita will be in Washington D, C. from Washington state on April 25-26, 2017. She would like to meet with Administrator Pruitt, you or other political appointees who are assigned to work on electric utility issues of interest to NWPPA.

NWPPA is an electric utility association in the Pacific Northwest representing 151 hydroelectric, nuclear power and natural gas electric utilities (municipal and electric coops) affected by EPA regulations including some that are going to be revisited under recent Executive Orders. Their membership involves many electric utilities (municipal and coop) that would be affected by EPA regulations across several states in the Northwest—not just those in Washington state. NWPPA’s member utilities serve 20 million customers making it one of the largest electric utility organizations in the western part of the United States.

They are interested in the following:

- \* Waters of the US – next steps (realizing it has been addressed in the Executive Order)
- \* Clean Power Plan review and replacement (they are aware of the Executive Order action last week)
- \* General EPA priorities related to the electric power sector

A link to the NWPPA organization is <https://www.nwppa.org/about-nwppa/> <<https://www.nwppa.org/about-nwppa/>> and board information at <https://www.nwppa.org/about-nwppa/nwppa-board-of-trustees/> <<https://www.nwppa.org/about-nwppa/nwppa-board-of-trustees/>>

Request: We represent a golf coalition you may be familiar with called We Are Golf (WAG). The coalition was formed in 2008 with the express purpose of giving decision-makers in Washington a more accurate picture of the golf industry and the game of golf in general. Negative assumptions about who plays, where they play etc. and a lack of recognition about how many jobs golf provides and the nature of those jobs had lead to punitive singling out of golf in policymaking and legislation. Apart from clearing the air on those fronts, WAG has also invested a lot of the coalition's efforts in advocating around environmental issues. It's that set of issues we of course would love to talk about with Administrator Pruitt and your appropriate EPA colleagues.

The golf industry has made huge strides in recent years when it comes to sustainable management of the two million acres of open space golf course land and water we have in this country. We have a great story to tell about huge steps we have taken forward to improve water quality and use, energy savings, pollution reduction and creation and protection of high quality fish and wildlife habitat. We want to stay on this trajectory and firmly believe we can continue to improve golf property stewardship to provide broad public benefits. In recent years, federal policies have unfortunately represented drags on our ability to do this. The golf industry is very excited about starting some fresh conversations with this administration and we'd like to start at EPA with your boss. WAG is eager to work with an administration that will have an interest in pausing to think through how any new policies or enforcement of existing policies will impact the golf industry's ability to increase the environmental value of golf.

Subject: Regulatory Reform and Other Items

Brittany,

I read that one of your assignments is the regulatory reform task force. Consequently, I wanted to reach out on some issues of concern. I've attached an email that I sent to Ryan Jackson that raises several issues that we would like to discuss. (Separately, we are trying to arrange a meeting for Barry Russell, IPAA's President and CEO with Administrator Pruitt through Sydney Hupp.)

Obviously, events are moving quickly. I know that the Administration filed an abeyance petition on the Subpart OOOOa litigation today. There is an issue there that is related that I'd like to call to your attention. The Subpart OOOOa fugitive emissions program – with its costly Leak Detection and Repair (LDAR) requirements – is scheduled to take effect on June 3. It would be helpful if this requirement, at least, could be stayed while the Subpart OOOO and OOOOa requirements are being reconsidered since a different approach might be developed. I know there are other provisions that are already in effect that raise similar issues.

I also spoke with Dave Rostker from the SBA Advocacy office regarding LDAR in a small business context where the issues arises in both the Subpart OOOOa and VOC Control Techniques Guidelines context. He suggested reaching out to EPA as well.

Hopefully, we can discuss these issues soon given your schedule.

Thanks for your consideration,

Lee Fuller

Subject: IPAA Issues at EPA; Possible Meeting

Ryan,

I'm reaching out to you but would be happy if you point me to a preferred contact person.

After the recent Energy Executive Order, IPAA would like to discuss a number of pending issues with EPA.

Barry Russell, IPAA's President and CEO, would like to meet with Administrator Pruitt to introduce himself and IPAA. Barry worked for EPA in the 1970s before coming to IPAA.

The issues that we'd like to discuss relate to several matters.

First, EPA's actions in response to the Energy EO with regard to the methane NSPS (Subparts OOOO and OOOOa) are most important to IPAA. While currently engaged in the litigation opposing the regulations, the pathway to reconsideration and possible revision is critical. IPAA wants to be involved as soon as possible and wants to offer its cooperation.

Second, IPAA strongly supports efforts to expand and enhance delegation of regulatory authority to states. We are looking for options to be helpful in identifying pathways, working with our state cooperating associations to encourage state actions and working with Congress if there are barriers that need to be addressed.

Additionally, following are several other items – mostly directly affecting independent oil and natural gas producers – that we would like to identify as issues that we would hope EPA could address:

1. Control Techniques Guidelines (CTG) – As a part of the Energy Executive Order, EPA is directed to reconsider the oil and natural gas methane New Source Performance Standard (NSPS) – Subparts OOOO and OOOOa. When the Obama Administration proposed the NSPS, it also proposed a CTG for existing sources of Volatile Organic Compounds (VOC) in Ozone nonattainment areas. The CTG was finalized in October 2016. It should be suspended or withdrawn until the NSPS issues are resolved and determinations can be made on the appropriateness of the technology being applied to existing sources. Otherwise, the CTG will be applicable in future State Implementation Plans (SIP).

2. RCRA Subtitle D Consent Decree – EPA agreed to a Consent Decree to settle litigation regarding mandatory duties under RCRA Subtitle D related to making determinations regarding the appropriateness of state oil and natural gas production wastes regulations. EPA has until March 2019 to respond but it should act quickly for two reasons. First, EPA's mandate to act does not require an extensive burden and the longer it takes to act, the more state programs appear to be viewed as inadequate. Second, the mandatory duties require action every three years. Action in 2017 would allow EPA to reconfirm its position in 2020 and establish a clear practice for the future.

3. Unconventional Oil and Gas (UOG) Extraction Effluent Limitations Guidelines (ELG) – EPA finalized UOG Extraction ELG for discharges to Publicly Owned Treatment Works (POTW) in June 2016. These ELG should be based on a technology standard – Best Available Technology Economically Achievable (BATEA). EPA concluded that all discharges to POTW should be prohibited based on the availability of underground injection wells and of recycling options. Neither of these are BATEA. EPA should not be making zero discharge determinations based on its perception of other options. It should determine BATEA requirements. If the BATEA requirements are too expensive, it should be the dischargers' choice to use alternative approaches.

4. Clean Air Act Enforcement Tactics – Over the past several years, EPA's Enforcement tactics have been excessively aggressive. For example, in North Dakota where the state did not have delegation of the NSPS program for oil and natural gas production, EPA Enforcement initiated direct actions against producers with regard to its interpretation of Subpart OOOO requirements for storage vessels. This interpretation differed from those EPA technical staff had initially indicated. Using its enforcement power, EPA filed proposed penalties

against a privately held producer that exceeded the value of its assets. The purpose was clear and predictable. EPA wanted to use its enforcement power to compel a limited asset company to enter into a consent agreement that would require actions that met Enforcement’s interpretation of the regulation and to commit to additional actions that were beyond EPA Clean Air Act authority to require. Not only did EPA use a gap in state delegation to step over North Dakota in its zeal, but these types of enforcement tactics reflect poorly on EPA and the federal government and should be ended.

5. Ozone National Ambient Air Quality Standards (NAAQS) Revisions – The 2014 revision to the Ozone NAAQS should be reconsidered. Implementation of the 2008 revision to the Ozone NAAQS had yet to be implemented and evaluated when the 2014 revision was finalized. NAAQS attainment should be the target, not promulgating new, unachievable revisions. EPA’s own data showed that the same areas it projected to fail to attain the 2008 NAAQS would fail to meet the 2014 revision. In those areas, the regulatory requirements would not change but the 2014 revision would bring new areas into nonattainment regulation. Even though EPA predicted those new areas would reach the 2014 NAAQS without additional local controls, those areas would be subject to new source permitting requirements that hamper their economic development. Where there is no compelling health benefit from a NAAQS revision – like the 2014 action – EPA should devote resources to attainment of the prior standard.

Thanks for considering this request. Please let me know how to proceed from here.

Meeting proposal: ENERGY STAR is moving a specification on clothes washers, which we oppose. It is critical that I ensure you are aware of what is going on and hopefully stop this action until we can talk in more detail. While this is an urgent matter, it is also very important to discuss the ENERGY STAR program broadly. At a high level, we support its moving back to DOE for our products and have discussed this with the DOE beachhead team. We have CEOs and other senior executives from the entire industry meeting in DC for our Annual Meeting from April 29-May 2. It would be very helpful if we could discuss our issues with you before that. Any time from Tuesday, April 25, to Friday, April 28 would be ideal.

Discussion Topics:

SNAP Rule Allowing Isobutane (EPA-HQ-OAR-2009-0286) & Rule 21 (bans HFCs for refrigerators in 2021)  
Microfibers (Trash-Free Waters)

Material Management/Landfill Diversion/Food Waste Disposers  
Safe Drink Water  
TSCA Reform Support  
Counterfeit Water Filters
